

**NEW FORMAT ALERT!**

On December 1, **Sneaky Sound System** and **Gurrumul**, amongst other **MGM** artists, release their current albums on the new DDA format. Like a CD package, each DDA has album tracks, lyrics, liner notes/credits, photos and artwork. Unlike a CD package, a DDA can hold hundreds of tracks (over varied file formats) and thousands of photos. The DDA owner also gets their own space within the D:Net Media System – “myDDA”. **DDA** and its **D:Net Media System** were designed by Australian music industry stalwart **Scott B. Murphy** in 2000. Go to DDA4me.com.
